# HIMALAYAN ROCK SALT URN

These urns are individually handcrafted from solid blocks of Himalayan rock salt deposits that are more than 250 million years old and believed to be the purest on earth. As a result of the handmade and natural qualities, each vessel is unique in both color and finish. The urns will dissolve within 4 hours when placed in water. Minor cracking and chips occur naturally, adding to the character of these beautiful urns.

Mist Grey, Oxblood, Ivory

Longtime ceramic artist and Seattle resident, John Ellefson began making urns after the passing of his father when he lovingly created the vessel to hold his remains. These soft blue, slab urns are topped with a cork making the remains easily accessible while still secure. Individually handcrafted from sheets or “slabs” of clay, these urns are not only beautiful, but also hold so much meaning between their walls.

## PAULOWNIA HARDWOOD BOX URN

---

Paulownia is a fast-growing hardwood and is a very light weight, fine-grained, and warp resistant wood. We chose to offer the more sustainable Paulownia wood box in place of an MDF, cherrywood box urn which is the standard option with pet cremation services. Size of urn needed is subject to change depending upon the amount of ash remains left after the aquamation process.

# BOYCE STUDIO PLANTURNS

BY C.C. BOYCE OF BOYCE STUDIO

Staying true to her hardworking Midwestern roots, 2nd generation woodworker C.C. Boyce draws inspiration from her current residence in Downtown Los Angeles as well as the many talented designers and artists of Southern California. Boyce Studio Planturns are crafted by hand using sustainable (FSC Certified lumber), locally sourced, made-in-America material whenever possible. Due to the nature of how the wood is sourced, not all wood options shown may be available at time of purchase.

**Boyce studio products are born from the belief that the things we use everyday should be beautiful, functional and last a lifetime.**
